AI Hazard Explanation

Dear rider of vehicle DL7SAF8144, your safety and the safety of your passenger are paramount. We've observed that neither you nor your pillion rider were wearing helmets during your ride. This isn't merely a regulation; it's a crucial safety measure designed to protect lives. In the unfortunate event of an accident, a helmet significantly reduces the risk of severe head injury by up to 69% and the risk of fatality by 42%. Your head is incredibly vulnerable, and even a seemingly minor fall or collision can lead to life-altering brain injuries or tragic outcomes. Riding without a helmet exposes both you and your passenger to critical harm from impacts with other vehicles, the road surface, or any unforeseen obstacles. Beyond the immense personal risk, riding without a helmet also carries significant legal implications, including substantial fines and potential suspension of your driving license, as enforced by traffic laws. We implore you to always wear a certified helmet, properly fastened, on every single ride. This simple yet profound act can genuinely make the difference between a safe journey and a devastating incident for you and your loved ones. Let's commit to safer roads together.
